

THE COMPACT CLASS

12 V CORDLESS

metabo[®]

www.metabo.co.uk

The 12 Volt cordless machines from Metabo make everyday work easier. Less weight. More power.

12V

The compact class.

The small power packs ...

- Slim and compact handle for optimal handling
- Low weight permits longer working, also overhead
- Shorter design makes use in confined spaces easier
- Particularly compact with the Li-Power battery pack

... with plenty of power.

- Unique brushless motor for highest efficiency for any application
- Even more performance thanks to the Metabo LiHD battery pack technology

ONE charger – one system.

18V

12V

Charging made extremely simple:
one charger for all Metabo slide-on battery packs from 12 to 36 Volt

The Metabo Quick system: Versatile and convenient

Quick and efficient working

Thanks to a tool free system enabling a quick change from drill chuck to angle attachment or to bit retainer for different applications with the same machine.

Increase in efficiency with competence accessories

Thanks to the Metabo »Quick« System and the magnetised female hexagon socket located in the end of the spindle, screwdriver bits and drill bits with a hexagon shaft can be inserted directly into machine without a chuck or bit holder to reduce the overall length and aid drilling/screwdriving in confined spaces.

POWERMAXX BS 12 BL Q DRILL/SCREWDRIVER

- Brushless drill/screwdriver with compact design for universal and demanding applications
- The Metabo 12 Volt class - lightweight, yet powerful
- Metabo Quick System: quick change of bit retainer and bits, for flexible working
- Integrated LED work light with night light function for optimal brightness in the work area
