Our experience is working for you

Over 100 years of experience

Since 1924 we have been working with passion, dynamics, confidence and courage. It all started with our **Metallbohrdreher** (metal drill), our namesake. From the world's first impact drill to our innovative Metabo Ultra-M battery pack technology: Metabo power tools set standards in terms of productivity, robustness, safety and service.

Systemised innovation

In all Metabo machines there are technologies delivering special features: From the Metabo Ultra-M battery technology to the Autobalancer in angle grinders, or the Metabo Quick System, which allows you a tool free change of application and enables you to work quickly and efficiently.

TOOLS, ACCESSORIES AND SERVICE FROM NÜRTINGEN, GERMANY

In every Metabo tool there is traditional German engineering ingenuity. Since 1924 we have been developing innovative ideas in our Nürtigen plant and have been implementing them into pioneering tools and perfect accessories for professional users directly on site. Our service, tailor-made to your requirements, also makes us a strong partner for the industrial sector.

Productivity

Our tools feature convincing technical solutions, offering you plenty of benefits. Minimal processing times yield maximum results. This helps you to save valuable time and reduce your costs.

Safety

The less time lost due to work related illness, the higher your productivity. Our products offer utmost safety and protection for the user – with this we are setting new standards in the market.

Robustness

Metabo's machines and accessories guarantee best quality, absolute reliability and unparalleled service life – for uncompromising high performance even in the harshest of conditions.

Service

From application analysis to individual product and system solutions, fast spare parts and repair service: Your workflow is our commitment.

The 12 Volt cordless machines from Metabo make everyday work easier. **Less weight. More power.**

12 V

The compact class.

The small power packs ...

- Slim and compact handle for optimal handling
- Low weight permits longer working, also overhead
- Shorter design makes use in confined spaces easier
- Particularly compact with the Li-Power battery pack

... with plenty of power.

- Unique brushless motor for highest efficiency for any application
- Even more performance thanks to the Metabo LiHD battery pack technology

ONE charger – one system.

Charging made extremely simple: one charger for all Metabo slide-on battery packs from 12 to 36 Volt

3 Years warranty

Metabo give you an unlimited charge cycle warranty on your batteries.

The Metabo Quick system:
Versatile and convenient

Quick and efficient working

Thanks to a tool free system enabling a quick change from drill chuck to angle attachment or to bit retainer for different applications with the same machine.

The right 18V BATTERY for the right application

CAS

100% Compatibility

All battery packs are compatible with all existing and future Metabo & CAS Partners 18V tools and chargers.

LiHD - HIGH-POWERED, WITHOUT THE CABLE.

The powerful cells in Metabo LiHD battery packs deliver enough power for handling even the toughest applications with no cables.

Thanks to LiHD technology, Metabo is the world's only manufacturer to cover the entire power range up to 3,200 watts.

Maximum power, available for an extremely long time – for any application.

CAS

Cordless Alliance System

100% compatibility for over 300 machines in the 18 V class!

The Cordless Alliance System (CAS) makes you independent from the wall socket! Profit from **problem-free compatibility** for **machines, battery packs and chargers** of different manufacturers. This permits a number of professional applications also with cordless tools – from standard to special tasks.

30 brands - 300 machines - 1 battery pack

One battery, many solutions. Cross-brand. 100% Compatibility.

One battery interface - more than 300 machines. From different manufacturers. With CAS, professionals can switch between the manufacturers without having to purchase a new battery pack or charger. To find out more visit: www.cordless-alliance-system.com

CAS assembles the various companies with very different target groups under one roof. The press machines from **Rothenberger**, for example, are the ideal tool for the work of fitters, heating engineers, refrigeration and air-conditioning technicians or service technicians.

A system with great user benefit

YOUR PERFECT SYSTEM

Ultra M Technology

For perfect communication between machine, battery pack and charger

LiHD – The most powerful battery pack technology in the world!

Thanks to LiHD technology, Metabo is the only manufacturer in the world to cover the entire power range – from 400 to 3,200 Watt – from standard machines to unique system solutions. Applications previously reserved for only the most powerful mains powered machines can now be handled cordlessly. It is the combination of many different components that offer added power, service life, and runtime.

The LiHD battery packs are now available in 12V with 4.0 Ah and in 18V with 4.0 Ah, 5.5 Ah, 8.0 Ah and 10.0 Ah.

Powerful

The combination of new high-performance battery cells and completely re-developed components within the LiHD battery pack ensures maximum power availability over an extremely long run time.

Leading technology.

More power

with LiHD cell technology in combination with a newly developed battery pack

- Enlarged power rails and contacts capable of handling high currents
- 3x better conductivity with cell connectors made of a specialized copper alloy

More runtime

- More active material in the cell
- Use of high quality materials (silver and copper)

Longer service life

and extreme robustness:

- Optimal protection against internal contamination with fully encapsulated cast design and full protective coating of electronics, as well as optimal gasket in the cover structure
- Protection of the cells with rubber pads
- Less frequent charging due to more usable cell energy
- Exterior rubber coating on the battery pack provides a secure, non-slip grip and also serves as shock protection

18V BATTERY PACKS

A decision for the future: The Metabo battery pack system

The correct choice of the battery pack system is a decision with long-term effect. The battery pack systems of different manufacturers are not compatible with each other, and who does not want to carry around an entire collection of battery packs and chargers, should rather decide for a uniform battery pack system right from the beginning. Therefore, so many professionals with high and very high demands for their tools trust in Metabo. We produce any relevant power tool, where it is technically sensible and feasible, also as cordless variant - powerful, innovative and in top quality.

Our vision - your ultimate independence thanks to innovative battery pack system

As leader in battery pack technology, Metabo consequently follows the vision of a cordless construction site to make you even more independent and mobile in your work. When deciding for our cordless interface, you are ideally equipped for the challenges of the future. With our innovations we are continuously setting new standards in the battery pack area.

They ensure limitless compatibility: The Metabo cordless systems

With our 100% compatibility within the battery pack system, you are always on the safe side - today and in the future! Since 2009, all Metabo battery packs, machines and chargers in a volt class can be flexibly combined with each other. This is possible by our powerful Metabo Ultra-M technology. It stands for the optimal coordination and perfect communication between machine, battery pack and charger. Like this, battery packs are charged in an efficient and gentle manner and are quickly ready to be used again thanks to patented AIR COOLED technology. When working, the energy is optimally used. At the same time our battery packs are particularly durable, and come with a 3 year warranty as standard.

The Metabo 3-year tool warranty

At Metabo we design our power tools for a long service life, but to give you additional piece of mind for your investment we offer the XXL warranty. After registration, your normal warranty is simply extended to 3 years from the date of purchase.

What is the XXL warranty?

The XXL warranty extends Metabo's normal one year power tool warranty to three years, and is acquired free of charge by registering online at www.metabo.com/xxl. The warranty is available only for tools purchased from April 1, 2004.

What is covered by the XXL warranty?

The XXL warranty covers defects in materials and workmanship. Simply return the tool to your point of sale or your nearest Metabo Repair Centre. See Metabo's warranty statement for full details.

Will all machines purchased come with the XXL warranty?

The XXL warranty is an extension that you receive free of cost only after online registration provided you purchased your machine anytime from April 1, 2004 onwards.

How does the registration work?

On our homepage, complete the XXL warranty form and print out the receipt and you will receive a confirmation via Email. Then, should you make a warranty claim, send this receipt along with the original sales receipt and the faulty machine to your point of sale or warranty agent.

Am I entitled to a warranty claim without an online receipt?

Yes, you are entitled to the normal one year warranty period. The online receipt is meant exclusively for extension of the warranty period to the XXL warranty (three years). If your tool is not registered, the normal one year warranty applies.

How can I register if I have no internet connection?

You can register your machine at www.metabo.com/xxl from any place with access to internet. On purchasing a new machine, your dealer can also register your machine online immediately, as long as the dealer has an internet connection.

How soon after the purchase date must I complete the registration?

The machine must be registered with four weeks after the purchase date. For more information, visit the Metabo XXL web site: www.metabo.com/xxl

3-year battery and charger warranty

Metabo 18V Lithium-Ion and LiHD battery packs and chargers are warranted to the original purchaser for 3 years from the date of purchase against defects in materials and workmanship.

If a listed battery fails to take a charge, or if the charger fails, due to a defect in the first 3 years of ownership, return the battery or charger, along with proof of purchase to your dealer or warranty agent.

Metabo Service: Easy, safe, fair.

The advantages

- ✓ Free repairs of wear and tear
- ✓ Free theft protection
- ✓ Free collection and delivery

FULL SERVICE: Theft protection:

- If an authorized device is stolen, a machine of the same type (basic device, no sets) can be purchased from the Metabo dealer with a 50% discount from the manufactures RRP Incl VAT.
- The replacement unit can take over the remaining time of the Full Service contract.
- To make use of the theft protection, the theft must be reported immediately to the police. The notification with the proof of registration must be submitted within 5 working days after the theft to Metabo.
- After successful testing, the new device is delivered to the dealer against payment of the purchase price.

Our full service: so easy – so fair

The Metabo FULL SERVICE is an optional extra which can be purchased at the same time as your machine purchase. Simply purchase a service card directly from your dealer, the full service price group can be found in the Metabo cordless catalogue and website.

When registering your machine within four weeks of purchase for the standard XXL warranty, simply enter the FULL SERVICE code as found on the service card and this will automatically upgrade your warranty to the FULL SERVICE.

The service flatrates are available in the 4 tightly calculated price categories.
