SDS PLUS HAMMERS

Metabo's powerful SDS Plus hammers are always the right choice when it comes to processing hard materials such as concrete or stone. The pneumatic hammer mechanism delivers high-energy impacts that allow for low fatigue working with high productivity.

All Metabo SDS Plus hammers come as standard with the renowned S-automatic mechanical safety clutch for maximum machine and operator safety, should the drill or chisel become stuck the S-automatic safety clutch disengages the motor from the drive which not only prevents kick-back but also ensures your machine does not stall and burn-out, therefore increasing the service life of your Metabo.

Machines equipped with our die-cast aluminium housings provide the highest longevity and performance with a strong mounted hammer mechanism which is resistant to the harshest of mechanical loads, robust protection from the working environment and efficient heat dissipation therefore prolonging the service life of your Metabo.

The enormous power combined with user-optimised ergonomics and safety make the Metabo hammers your perfect choice of tool when working in demanding applications.

For added piece of mind, Metabo offers you a 3 year XXL warranty on your investment when registered with 4 weeks of purchase.

KHA 18 LTX Cordless Hammer

- Vario (V)-electronics for working with customised speeds for the materials used
- Metabo S-automatic torque limiting clutch: mechanical decoupling of the drive if the drill jams for safe working
- Ultra-M technology for highest performance, gentle charging, optimum energy utilisation and long service life

Battery pack voltage	18 V
Max. single blow energy (EPTA)	2.2 J
Maximum impact rate	4000 bpm
Drill Ø concrete with hammer drills	24 mm
No-load speed	0 - 1100 / min
Bit retainer	SDS-plus

KHA 18 LTX Standard scope of delivery

Hammer chuck for tools with SDS-plus shank end
metaBOX 165 L, Rubber-coated handle, Drilling depth guide
Carrying strap, Charger ASC 55 "AIR COOLED"

KHA 18 LTX BL 24 Quick Cordless Hammer

BRUSHLESS

Battery pack voltage	18 V
Max. single blow energy (EPTA)	2.2 J
Maximum impact rate	4500 bpm
Drill Ø concrete with hammer drills	24 mm
Drill Ø masonry with core bits	68 mm
Drill Ø steel	13 mm
Drill Ø soft wood	25 mm
No-load speed	0 - 1200 / min
Bit retainer	SDS-plus
Weight (inc. battery pack)	3.4 kg

- Extremely light and compact cordless hammer with integrated extraction interface
- Maximum drill performance, efficiency and service life thanks to brushless technology and high-performance hammer action
- Dust-free drilling with compact dust extraction ISA 18 LTX 24 (accessory)
- Combination hammer with 3 functions: hammer drilling, drilling and chiselling
- Metabo VibraTech (MVT): working, also continuously, in a low-fatigue manner whilst protecting the user's health
- Metabo Quick: fast, tool-free chuck for working with SDS-plus and straight shank drill bits
- Vario Constamatic (VTC) Electronics for drilling jobs in materials requiring customised speeds, which remain almost constant under load

KHA 18 LTX BL 24 Quick Standard scope of delivery

Hammer chuck for tools with SDS-plus shank end
Keyless chuck for tools with cylindrical shank
Rubber-coated side handle, Drilling depth guide
Charger ASC 145 "AIR COOLED"
metaBOX 165 L

ISA 18 LTX 24 Dust Extractor

- Extremely light and compact dust extraction for dust-free drilling in concrete, stone and masonry
- Simple, tool-free installation to the cordless hammer KHA 18 LTX BL 24 Quick
- Ideal for working overhead or in areas sensible to dust
- Health-friendly working with HEPA filter for smallest dust particles
- Precise setting for different drilling depths and drill bit lengths
- Tool-free replaceable suction head with low-wear brushes
- 3 seconds delay to extract the remaining dust from the drill hole
- Transparent collection container can be emptied easily, e.g. for 160 bores Ø 6 / 40 mm
- 100% Drilling performance with active dust extraction thanks to being driven by own motor

Drill Ø	5 - 16 mm
Maximum drill length	160 mm
Rated input power	65 W

Carbide-tipped Hammer Drill Bits

SDS Plus / "PRO 4" / 2 cutting edges

- High quality carbide – long service life, quicker, no problem when cutting into steel reinforcements
- The special cutting geometry on the chisel-shaped bit head ensures quick penetration into the toughest concrete and into granite. Easy centring
- The 2-spiral helix with its large geometry ensures quick delivery of bore dust, reduces friction in drill hole, improves the vibration behaviour
- For use in concrete, masonry and natural stone

SDS Plus / "PRO 4 Premium" / 4 cutting edges

- The connection of the new, innovative, intelligent geometry with its uncompromised quality of detail ensures a long service life, precise drill holes and an unusually quiet run – even on the toughest loads
- The genuine 4-spiral helical geometry distributes the loads optimally on all spirals, thereby attaining low-vibration drilling characteristics. The four large-volume conveyor coils quickly remove the drill dust from the drill hole
- The high-quality special steel makes the drill extremely robust and the resistance is further increased by the special surface treatment. It drills up to 50% more dowel-suitable drill holes than other drill hammer bits
- For professional use in the hardest natural stones, concrete, brickwork

110 V Order No. 600713610

Breakthrough with the new SDS-max hammers.

3 new SDS-max combination hammers and 2 new SDS-max chipping hammers from Metabo in the 5, 8 and 11 kilo classes.

Extreme service life and highest drill performance thanks to the brushless technology.

BRUSHLESS

KHEV 5-40 BL Combination Hammer

- Maximum drilling progress and high breaking performance thanks to maintenance-free brushless motor and high-performance hammer action
- Long service life thanks to brushless technology and robust aluminium die-cast housings of gear and motor
- Combination hammer with 2 functions: hammer drilling and chiselling
- Low-dust chiselling and drilling with external dust extraction ESA max (accessories)

Max. single blow energy (EPTA)	8.7 J
Maximum impact rate	2900 bpm
Rated input power	1150 W
Drill Ø concrete with hammer drills	40 mm
No load speed	350 / 500 rpm
Bit retainer	SDS Max
Weight (without power cable)	8.3 kg

KHEV 5-40 BL Scope of delivery

Rubber-coated side handle, Drilling depth guide, Lubricant for tool shank end, Duster, Plastic carry case

240 V Order No. 600765500 | 110 V Order No. 600765610

Full Service price group **FS4**

Dust extraction with ESA max

- **For drilling and chiselling** with different attachments
Drill bit of Ø 16–52 mm pointed chisel and flat chisel up to 25 mm
- **Tool-free installation**
Drill bit and chisel can be removed without detaching the extraction system
- **Compatible** with all new Metabo SDS-max hammers in connection with all Metabo M and H class vacuum cleaners

Extraction set ESA max Order no. 623271000

KH 5-40 Combination Hammer

- Combination hammer with 2 functions: hammer drilling and chiselling
- Metabo S-automatic safety clutch: mechanical decoupling of the drive for safe working should the drill stop unexpectedly
- Rotation stop for chiselling
- Robust die cast aluminium gear housing for optimum heat dissipation and long service life

Max. single blow energy (EPTA)	7.1 J
Maximum impact rate	2800 bpm
Rated input power	1100 W
Drill Ø concrete with hammer drills	40 mm
Drill Ø masonry with core bits	105 mm
Bit retainer	SDS Max
Weight (without power cable)	7.1 kg

KH 5-40 Scope of delivery

Rubber-coated side handle, Drilling depth guide
Lubricant for tool shank end, Plastic carry case

240 V Order No. 600763500 | 110 V Order No. 600763610

Full Service price group FS4

KHE 5-40 Combination Hammer

- Metabo VibraTech (MVT): integrated damping system to reduce vibrations in order to protect the user's health
- Vario-Tacho-Constamatic (VTC) – Full Wave Electronics for working with customised speeds for the materials used that remain almost constant under load
- Thumbwheel for preselection of impact rate
- Electronic soft start for smooth startup

Max. single blow energy (EPTA)	7.5 J
Maximum impact rate	3200 bpm
Rated input power	1010 W
Drill Ø concrete with hammer drills	40 mm
Torque	95 Nm
Bit retainer	SDS Max
Weight (without power cable)	6.2 kg

**SDS max "Pro 4 Premium" hammer drill bit
for very demanding applications.**

**Highest drilling speed –
best service life!**

**from Ø 12 x 340 mm
to Ø 28 x 920 mm**

50% longer service life

Aggressive, robust full carbide head
with 4 blades

More accurate

Sharp 90° centering point

25 % faster

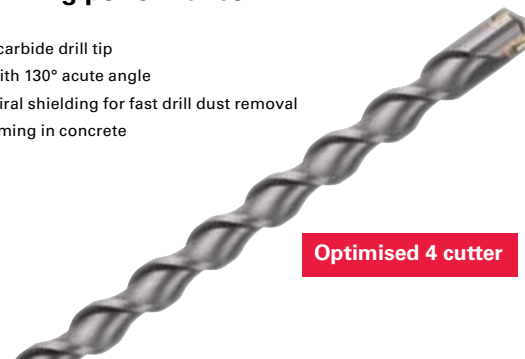

Compared to market standard thanks
to optimised blade geometry

**SDS max "classic" hammer drill bits
for good drilling performance.**

- High-quality carbide drill tip
- Main blade with 130° acute angle
- Optimised spiral shielding for fast drill dust removal
- Reduced jamming in concrete

Optimised 4 cutter

SDS-max dust extraction drill bit

Extremely low-dust

- Drilling and cleaning in one work step
- Noticeable higher drilling speed
- Longer service life thanks to active drill tip cooling

Ø mm	Overall length mm	Order No.
20	600	626913000
25	600	626916000
32	900	626922000

SDS-max chisel bits

SDS-max "classic"

- Robust, hardened tools with high material quality
- Good cutting output with good tool life

SDS-max pointed chisel
400 mm
Order no. 628409000

SDS-max flat chisel
400 x 25 mm
Order no. 628410000

SDS-max "professional"

- Special hardened steel
- Long tool life

SDS-max pointed chisel
400 mm
Order no. 623352000

SDS-max flat chisel
400 x 25 mm
Order no. 623354000

SDS-max "professional premium"

- Highest breaking performance and longest tool life
- Maximum removal thanks to efficient impact transmission and additional cutters

SDS-max pointed chisel
400 mm
Order no. 629180000

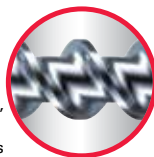

SDS-max flat chisel
400 x 25 mm
Order no. 629181000

Carbide-tipped Hammer Drill Bits

SDS Max / "PRO 4" / 2 cutting edgess

- The innovative, unique carbide blade geometry and large, robust subsidiary blades arranged in optimum 4 x 90° symmetry prevent catching when meeting reinforcements and master even the toughest of application and the use of the most powerful hammer drills
- Wear marking on both sides of the main plate acts as an indicator allowing you to assess the measure of the dowel holes
- The patented core-strengthened spiral geometry offers an optimum between volume and break safety and brings more impact energy to the carbide tip
- A special procedure for surface compaction compacts the structure of the steel and makes the drill more resistant
- For use in concrete, masonry and natural stone
